Connecting Families. In a different way.

As we get older, we may worry more about sudden illnesses or falls.

Families and carers may also worry about their loved-ones who live alone.

However, we also want to live independent lives.

We don't always want to answer the phone, for instance, or we might want go out without having to tell someone first. But we also need to know that if something happens, we can get help quickly.

With Eila Connect, you can live your life in the independent way you want, while still being connected to your family/carers network.

We all value our independence, no matter our age. This is why we at Crothers Security Ltd developed Eila Connect. We want to help older people live safe, secure lives in their own homes.

How Does Eila Connect Work?

Our trained staff will place sensors around your home. These sensors detect movement in your home and send this information to your family member or carer.

Your family member or carer will know:

- ✓ You had a good night's sleep
- ✓ You are up and about
- ✓ You have arrived home after a trip
- ✓ Your front door is closed

We also provide a **pendant, brooch or wrist device** that can tell if you have had a fall:

- ✓ The device has an emergency button you can press if you feel unwell
- ✓ You will be put through to a member of our trained staff, who are available **24 hours a day**
- ✓ The staff member will talk to you to find out what is wrong
- ✓ The staff member can call the **emergency services** or your carer or family member if needed

A House fitted with **Eila Sensors**:

There are many **extra safety sensors** that Eila Connect can provide, for example:

- ✓ Safety sensors inside your home that will know if you fall
- ✓ Smoke and flood detectors
- ✓ A pocket device for when you are out and about. If you have a fall or become unwell, you can simply press a button and talk to a member of our trained staff who will send help to you

Frequently Asked Questions

Do I need a phone line?

No you do not need to have a phone line.

Will there be wires or cables?

No, the system is completely wireless.

Is there a camera or microphone?

No, the system works by picking up on movement around your home (like your burglar alarm).

What Benefits have clients noticed?

"I'm glad my daughter has a good night's sleep because she has the comfort of Eila Connect."

Marie, Dublin

"I like living alone, I like the independence, but I don't want family worrying about me and now they can rest easy with the Eila unit."

Joe, Wexford

"Where I live is quite isolated, but I like the peace and quiet and I love staying in my own home, but my son and daughter in-law worry about me. Now they can relax with a glance at the Eila Connect app and I can get on with living my life."

Margaret, Galway

We at Crothers Security Ltd have been providing peace of mind to home owners for over 30 years and we are passionate about using technology to help people live safer lives.
